THE PARSONS SCHOOL HOUSE

Sonnet

WRITTEN BY ALFRED A. ORDWAY, FRIEND OF POET WHITTIER

“From arbored walk upon the height we gaze
Through sunset’s glow across the wooded swells,
O’er lands from gleaming river to the fells
Where linger yet the twilight’s rosy rays;
The hour of eve a soothing charm conveys
When with it comes the sound of far off bells—
Lone Byfield’s, softly o’er the distance, tells
That thankful people meet for song and praise.
Joy swells the heart when praise fills all the air!
It is the hour when through the shadowed trees
Each breath of night will lisp a soothing word,
It is the hour when low upon the breeze
The ocean’s rolling on the shore is heard,
While peace of night comes o’er us unaware.”

—*From Boston Transcript.*

Dummer Academy

THE school receives both boarding and day scholars from the age of ten years and the fifth grade, and by a systematic course of study extending over eight years, prepares them thoroughly for college or business life. While doing this, the school aims to discover the possibilities of each student and to train him so that in utilizing his possibilities, he may think clearly and soundly, and, with widened perceptions and strengthened affections, seek eagerly his proper place in the community, render full service, and advance high purposes.

The daily life and interests of the boys are carefully considered by the masters. The fact is appreciated that they are personally responsible for the students during the entire twenty-four hours of the day. The masters also realize that the training in morals, manners and habits, which is the natural responsibility of the parent, is for a time delegated to them.

The size of the school enables the masters to know each boy well. The social life is varied and interesting, but the distractions of city life are eliminated. The school is the center of interest. The campus, athletic field and

large farm offer tempting opportunities. In addition to the usual forms of athletics the boys enjoy the country sports in their seasons — hunting, snow-shoeing, and swimming in the River Parker. A majority of the boys are out of doors all the afternoon, leading the wholesome, normal life so necessary for a proper development. The younger masters have had athletic training and are companions and instructors in the sports. The result of this life is an atmosphere of happiness and contentment and a thorough understanding between masters and students.

A CORNER IN THE COMMONS

Equipment THREE HUNDRED AND THIRTY ACRES of rolling land in the best of the North Shore country, bordering on the River Parker, an arm of the sea from Plum Island Sound.

THE GOVERNOR'S MANSION HOUSE. (Built 1716.) A fine piece of Colonial Architecture, occupied by the Master.

PARSONS' SCHOOL HOUSE. The principal school building, containing library, laboratories, recitation rooms, and a large assembly room used for evening study.

THE SCHOOL COMMONS. Headquarters for the school life, containing a comfortable living-room used as a common gathering place, an adequate dining hall with modernized commissary equipment, the Master's office, rooms for sixteen older boys, and a large lavatory with shower-bath.

PIERCE COTTAGE. Three stories used as dormitories for twenty younger boys, a married master and assistant.

THE MASON COTTAGE. Eight rooms, Dutch Colonial Architecture, just completed, occupied by the Recorder and his family. This is a step towards securing a permanent resident faculty.

THE GYMNASIUM. Sufficiently equipped with apparatus and with bathing facilities, 30x60-foot basketball floor, and handball court. **Equipment**

THE ORIGINAL SCHOOL HOUSE. Dating back to 1763, now remodeled and used as temporary quarters for lower school.

A SMALL POWER HOUSE AND LIGHTING PLANT. Enabling all the buildings to be lighted by electricity.

WATER PLANT. All the water used about the school is piped from a large spring a quarter of a mile away. The spring and its surroundings are controlled by the school.

Plans are now being prepared for the erection of a brick building to contain four schoolrooms on the first floor and dormitory rooms for twenty boys and two masters on the floors above. **Proposed
New
Building**

ANCHORAGE ON THE PARKER

The certificates of this school, in lieu of examinations, are accepted by **Certificates** all New England colleges (except Harvard and Yale, which admit by examination only).

SOME of the elements that make Dummer today especially effective in **Special** the training of boys, are as follows:

Advantages

First; The traditions of a century and a half of service, the high ideals of its teachers and graduates.

Second; The quiet beauty of the school and its surroundings, its wholesome tone and homelike atmosphere, a student body characterized by a democratic spirit in harmony with its environment, and fostered by the masters through their close personal touch with the students and constant recognition of the needs of a boy's higher nature.

Third; A curriculum logically planned, masters specially qualified for their work, constant oversight and insistence upon sustained effort on the part of each student, training in self-control, firm, frictionless discipline, and the rigid exclusion of the unfit.

Fourth; An equipment suited to all the needs of the boys, an excellent table, pure air and water, a minimum of interruptions due to sickness or distractions of any sort, and the spirit of work which pervades the whole institution.

STUDENT'S ROOM

The Junior School

AT PIERCE COTTAGE

THIS department covers the work done in the upper grades of a grammar school and furnishes a thorough preparation for the Upper School of the Academy. The subjects taught include Reading, Arithmetic, Spelling, American History, Geography, English Grammar and Composition, Physiology and Penmanship. The Junior boys are also given regular periods in the Gymnasium. The classes in this department are

small and the boys receive thorough drill and constant individual attention. **Junior School**

The hours are so arranged that the recitations begin early in the morning and are finished at 12.45. The afternoons are spent in supervised out-door sports and such other activities as a boy finds on a three-hundred-acre farm, with boating, bathing and fishing adjuncts.

Much of the instruction of the last year in the Junior School is given by Masters of the Upper School. This insures the co-ordination of the departments and bridges the chasm so often found at this point.

MANSION HOUSE

SPRING BLOSSOMS

Any pupil who proves himself capable of doing more than the prescribed work in this grade, has the privilege of pursuing one subject in the Upper School; and vice versa, a pupil in the Upper School who is poorly prepared in any branch of grade work may take that subject with the Junior School. By this method the progress of a pupil who excels along certain lines is not retarded, and the backward one is strengthened in the subject he finds difficult.

Individual Needs

Textbooks : Montgomery's Leading Facts of American History.

Frye's Geography.

Carpenter's Geographical Readers.

Hamilton's Complete Arithmetic.

Longman's English Grammar.

Heath Readers, and standard fiction.

Dole's American Citizen.

Wentworth and Hill's Arithmetic.

Southworth's English Grammar and Composition.

Blaisdell's Physiology.

Richard's Spelling Book.

Grueber's Stories of Thirteen Colonies.

Spelling and Defining Words from Geography, History and Readers.

The younger boys are separately housed in Pierce Cottage and are the special charges of the House Master during the hours not given to study and outdoor life.

The social life and discipline are as nearly as possible those of a well-ordered home.

APPROACH FROM ROWLEY

STUDENTS are admitted to any class for which they are qualified as **Admission** shown by approved certificates or by examination.

No boy will be admitted who does not present satisfactory letters of recommendation from former teachers.

Boys are entered for the whole school year unless by agreement made **Terms** beforehand in writing, but no boy will be retained in the school whose removal, either permanent or temporary, is believed to be for his best interest or that of the school.

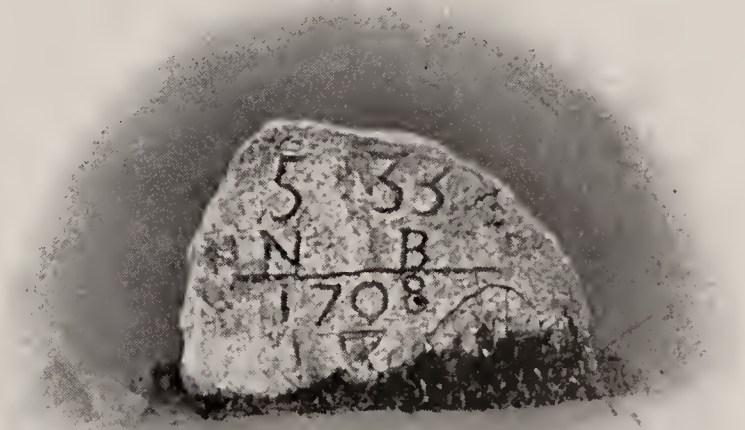

Applicants for the first year in the Upper School are examined in Arithmetic, English, Grammar and Geography.

Written examinations are held once a month and reports of standing sent to parents or guardian.

No student is allowed to remain at the Academy during the regular vacations, except by special arrangement made beforehand with the Treasurer or the Master.

OLD MILESTONE AT THE GATE

Newburyport 5 miles
Boston 33 miles

Religious Life

WHILE the school is a Congregational foundation, it is in fact non-sectarian. It insists on some positive religion as of great importance to the developing boy and seeks to enrich his life by teaching the love of truth and the significance of worship and aspiration.

The exercises of each day begin with morning prayer. On Sunday, attendance at the morning service of the Byfield Parish (Congregational) Church, or of some other church selected by parent or guardian, is required.

Students meet the Masters in a regular course of Sunday School lessons on Sunday afternoons.

In the evening the whole school gathers at the Academy Chapel for a service of song and an address by the Master or a speaker invited to conduct the service.

As a part of the school course regular instruction in the Bible as literature is given.

Social Life

A WINTER course of four entertainments is given under the direction of the Athletic Association. This closes with a Minstrel Show and Vaudeville given by the school talent. The proceeds go towards the athletic expenses.

MASTER'S STUDY

Every few weeks a committee of boys decorate the gymnasium and a dance is held from eight to eleven. The ladies of the faculty prepare the invitation list and act as matrons.

Lectures, receptions and concerts at the school and in Newburyport, and free use of the Newburyport Public Library are features.

A SOUND physical basis is requisite for healthful mental development. Therefore, athletics as recreation and pastime are encouraged, and special attention is given to the building of the body. Students are required to submit to a thorough physical examination by the physical director, who will prescribe the proper exercise to be taken.

Whenever possible exercise is taken in the open air in some enjoyable form.

JUNIOR BASKETBALL TEAM

BASKETBALL TEAM

The football and baseball fields are conveniently located. The diamond is skinned and ballasted.

Tennis courts and a pond for skating are close at hand on the school property.

During the past winter a hockey team was organized and a short schedule played. The game is growing rapidly in popularity.

Arrangements can be made to keep saddle horses or ponies at the Academy farm.

As there is game to be found in season on marsh and river, permission may be obtained by the older boys to keep and use shotguns. This does not apply to pistols and rifles.

In football, baseball, and basketball the interest is very keen and strong teams are the result.

The open, rolling fields in the vicinity of the Academy furnish ideal opportunities for cross-country running.

Boys are encouraged to bring their canoes or boats, as the Parker and Mill rivers, which are close by, afford excellent facilities for boating.

No boy who cannot swim is allowed to use a canoe.

The athletics of the school are in general controlled by the Athletic Association, which is an organization of the boys with two faculty members.

FOOTBALL TEAM, '13

Expenses

THE cost of tuition and board is \$600.00 a year. Day pupils pay \$150.00 a year tuition. Students residing in Byfield Parish pay \$50.00 a year tuition. (See also Scholarships.)

Books, stationery, and laundry are furnished at list rates.

Day pupils may take luncheon at the Commons at \$1.50 per week.

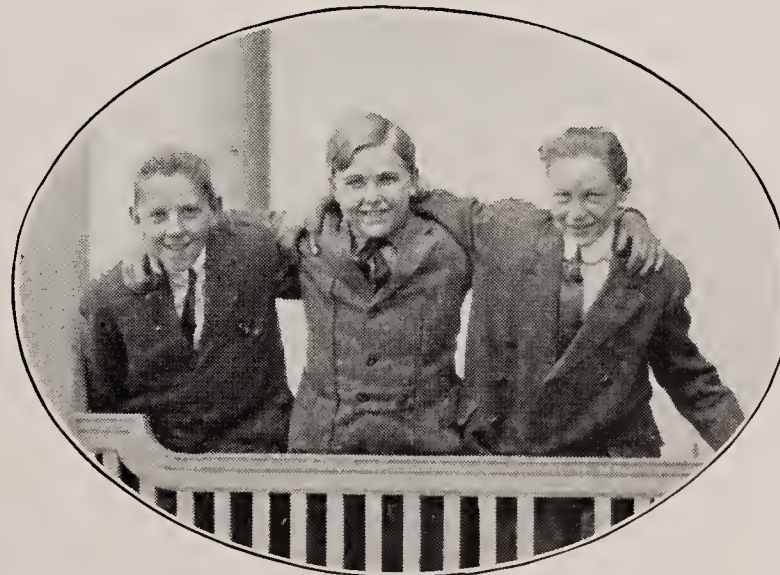

A laboratory fee of \$5.00 is charged those taking courses in chemistry or physics.

The graduation fee is \$5.00.

An annual subscription of \$10.00 for athletics is asked from each student.

A deposit of \$15.00 is required of each boarding student at time of registration.

Bills for tuition are invariably due as follows: one half at the beginning of the first term, one half at the opening of second term (January). No abatement of tuition for absence for any cause will be made except in cases of sickness lasting a term, when the loss is shared equally by the school and the parents.

TRACK TEAM, '14

Each boy is supplied with couch, mattress, pillow, double blanket, **Outfits** chiffonier, table, chair and clothes closet.

He should bring a bath-robe, bed slippers, bath towels, common towels, sheets (3 yards long and 2 yards wide), pillow cases (33 inches long by 23 inches wide), napkins and ring, couch cover, two bags for soiled clothes, a small rug and such additional blankets as he may desire. All articles should be marked with the owner's name.

The school will purchase linen for the student on proper authorization or will furnish it for student's use at \$10.00 a year.

Suitable clothing and footwear for out-door life in all weathers are very essential. A sweater and gymnasium suit are also necessary.

The Chapters of the Dummer Allies of Newbury and of Newburyport **Scholar-** have established scholarships, awarded annually to deserving students. The **ships** scholarships provide for tuition for a year, wholly or in part.

For boarding students there are also opportunities for self-help.

BASEBALL TEAM, '13

PUBLIC declamations are held, and at the annual spring contest prizes **Prizes** are awarded. These are the gift of Mr. Fred Marden Ambrose. First prize, \$25; second prize, \$15; third prize \$10.

Provision is also made for an annual essay contest, which is open to members of the three upper classes.

From the income of the Moody Kent fund six honors of \$10 each are awarded at Commencement day for the highest standing or honor rank in each of the following branches:—English, Classics, Modern Languages, Mathematics, Science, and History.

PRIZES AWARDED IN JUNE 1913.

First Prize, \$25, Roger Brooke Coulter, Sandy Springs, Md.

Second Prize, \$15, Paul Gerry DeRosay, Corry, Pa.

Third Prize, \$10, Willard Strauss Kohn, New York City.

Mathematics, Paul Gerry DeRosay, Corry, Pa.

Modern Languages, Harry Thomas Cutter, Newburyport, Mass.

History, Benjamin Pearson, Jr., Byfield, Mass.

English, Roger Brooke Coulter, Sandy Springs, Md.

Latin, Fred Jowett Tapley, Haverhill, Mass.

General excellence, Ward Holman Loud, New York City. Honorable **Special** mention, John Yesair, Byfield, Mass. Flag presented by Rev. Glenn Tilley **Prizes** Morse, for graduate having highest average, Roger Brooke Coulter, Sandy Springs, Md.

OLD SCHOOL
BUILDING

General Information

DUMMER ACADEMY is thirty-five miles from Boston in a northerly direction. Trains on the Eastern Division of the Boston & Maine Railroad to Ipswich and Newburyport are the more convenient for passengers with hand baggage. Passengers with heavy baggage may reach the school by taking trains on the Western Division of the Boston and Maine Railroad, to Byfield. Electric cars run directly to the school from each of the three stations mentioned above. Cars leave Ipswich (6 m.) and Newburyport (5 m.) once an hour, on the half hour, and reach the school in twenty-five minutes; leave Byfield at twenty minutes before the hour, connecting with the other cars.

Trains leaving Boston for Ipswich at 10.24 A.M. and 12.25 P.M. and the 7.11 A.M. and 12.10 P.M. for Byfield make best connections with electrics. There are twelve other trains for Ipswich, fourteen for Newburyport, during the day. A motor may be secured at Ipswich or Rowley by which the school may be reached in twenty five minutes.

All freight and express matter should be billed to Byfield.

Telegrams should be addressed, "Dummer Academy, Newburyport, Mass." To reach the Principal by telephone, call 261 M Newburyport. To reach the Recorder, call 261 W. All other calls, 8778-4 Newburyport

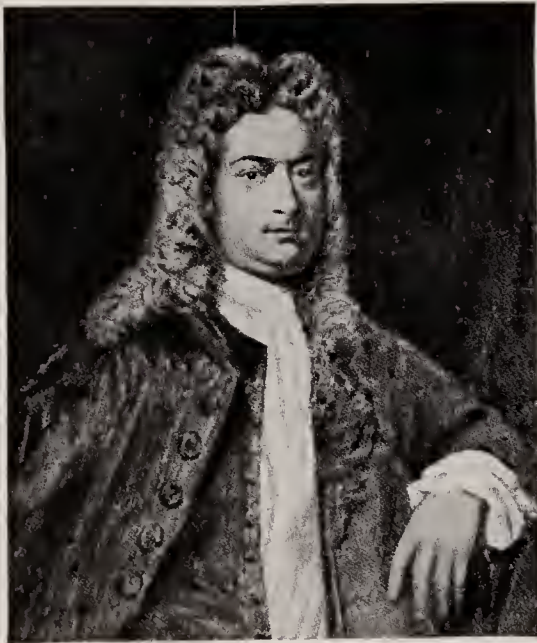

WINTER FUN

Historical

DUMMER ACADEMY was founded by the Honorable William Dummer who was Lieutenant Governor of the Province of Massachusetts Bay from 1716 to 1730 and acting Governor from 1723 to 1728 and from the time of the death of Governor Burnett until the arrival of Governor Belcher.

He was grandson of Richard Dummer, one of the early settlers of Newbury, a man of great wealth and liberality. Governor Dummer was born in Boston in 1677 and died there October 10, 1761. He is buried in the Granary Burial Ground, Boston. He married Katharine, daughter of Governor Joseph Dudley. Their portraits now hang in the mansion house. He inherited the large landed estate of 330 acres in the Parish of Byfield in Newbury, which had belonged to his grandfather and in 1716 he erected on it the Mansion house in which he resided in summer during the remainder of his life, and which now, in perfect preservation, is used as the house of the Head Master of the school. This Mansion house is said to have the most beautiful Colonial doorway in New England. In this house very many of the famous men of those early days have been guests.

By his will dated June 28, 1756,
with codicils in 1758 and 1759, Governor

STAIRWAY IN THE MANSION

MADAME DUMMER
[KATHARINE DUDLEY]

Dummer gave his 330 acres in
Byfield with his Mansion house
to trustees, the income from the
same to be first appropriated to
the erection of a "Grammar
School house to be erected on

the most convenient part of my Sd farm,” and after that forever “towards the maintenance of a Grammar School Master in Sd school.”

A school house was built in 1762 which is still standing and is now used as a chapel.

In this little building, on March first, 1763, the school was opened for pupils, under the charge of the celebrated Master Moody, who retained the position until 1790. In the year 1782 the school was incorporated by Special Act of the Legislature of Massachusetts under the name of “The Trustees of Dummer Academy in the County of Essex.”

Governor Dummer’s provision for the establishment of this school whether considered in reference to the time or the consequences of the act, entitles him to perpetual praise. For a number of years the school continued to be the only foundation of its kind. It has continued for 150 years, strong through its honorable traditions.

The following is a list of those at present enrolled at Dummer :—		Students
